

SUNO SOLAR TABLE

Suno™ represents a new type of intelligent furniture that incorporates elements of product design, fashion and technology into one.

Suno™ is a solar table that works as a beautiful smart charging station and safe box for your valuables.

Some of the key features of SUNO table

The Suno™ solar charging table includes a hidden safe box and a mobile-phone stand to keep you connected. You can charge your smartphone and store your valuables safely inside the safe box, while keeping an eye on how much power is left on its display. Suno™ also comes with two USB ports to charge your tablet or other mobile devices.

Multiple color variants and materials

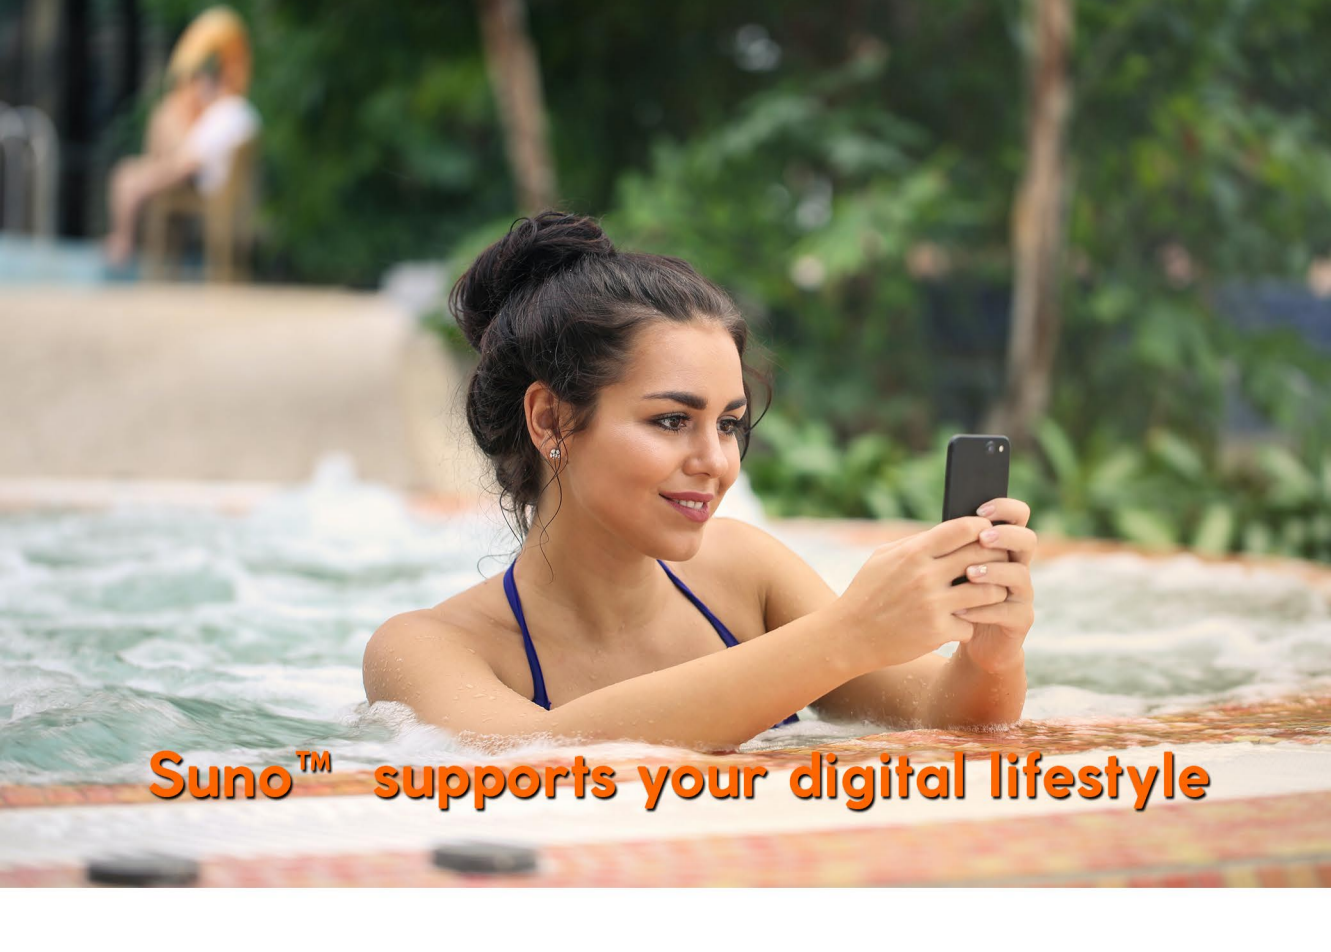

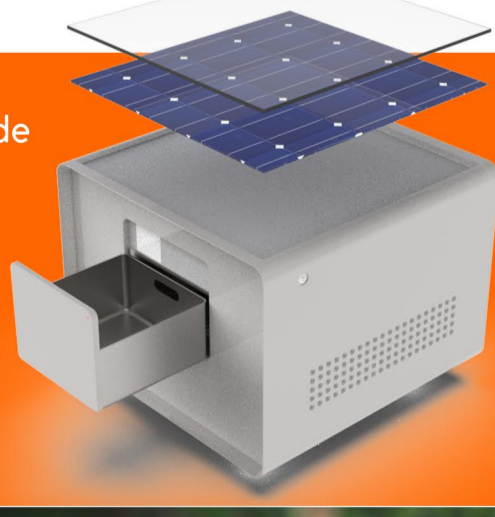

The Suno™ tables are available in multiple color variations and form factors in accordance with clients needs and specifications.

The Suno solar table is the perfect addition to any outdoor entertainment.

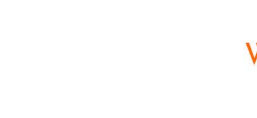

The sturdy table top and frame are made from FSC certified material, with a protective, powder coated finish. An integrated solar panel means that it can be easily charged without having to connect it to the mains electricity.

Suno™ supports your digital lifestyle
